# Help Needed to Improve Response Rates by PDs - Pilot Cycle 2!

**We need your help to improve the handoff –** Reduce the burden on our PDs; Improve the validity of the data; and ultimately enhance the UME curricula and residents' readiness for GME

In support of recommendation #25 of the COPA UGRC:

*"Early and ongoing specialty specific resident assessment data should be automatically fed back to medical schools through a standardized process to enhance accountability and to inform continuous improvement o the UME programs and learner handovers" https://physicianaccountability.org/*

AAMC

# Thank You OPDA & All Pilot Participants!

## We also appreciate the early ideation Task Force Members

# RRS Pilot: Our Overall Goal

**Our overall goal is to improve the medical schools' ability to make data informed decisions about their medical education practices.**

In order to meet that goal, we pilot testing a streamlined, standard approach to collecting assessment data of resident readiness for entry to GME. We are coordinating this effort with ACGME to share formative information about graduates GME readiness.
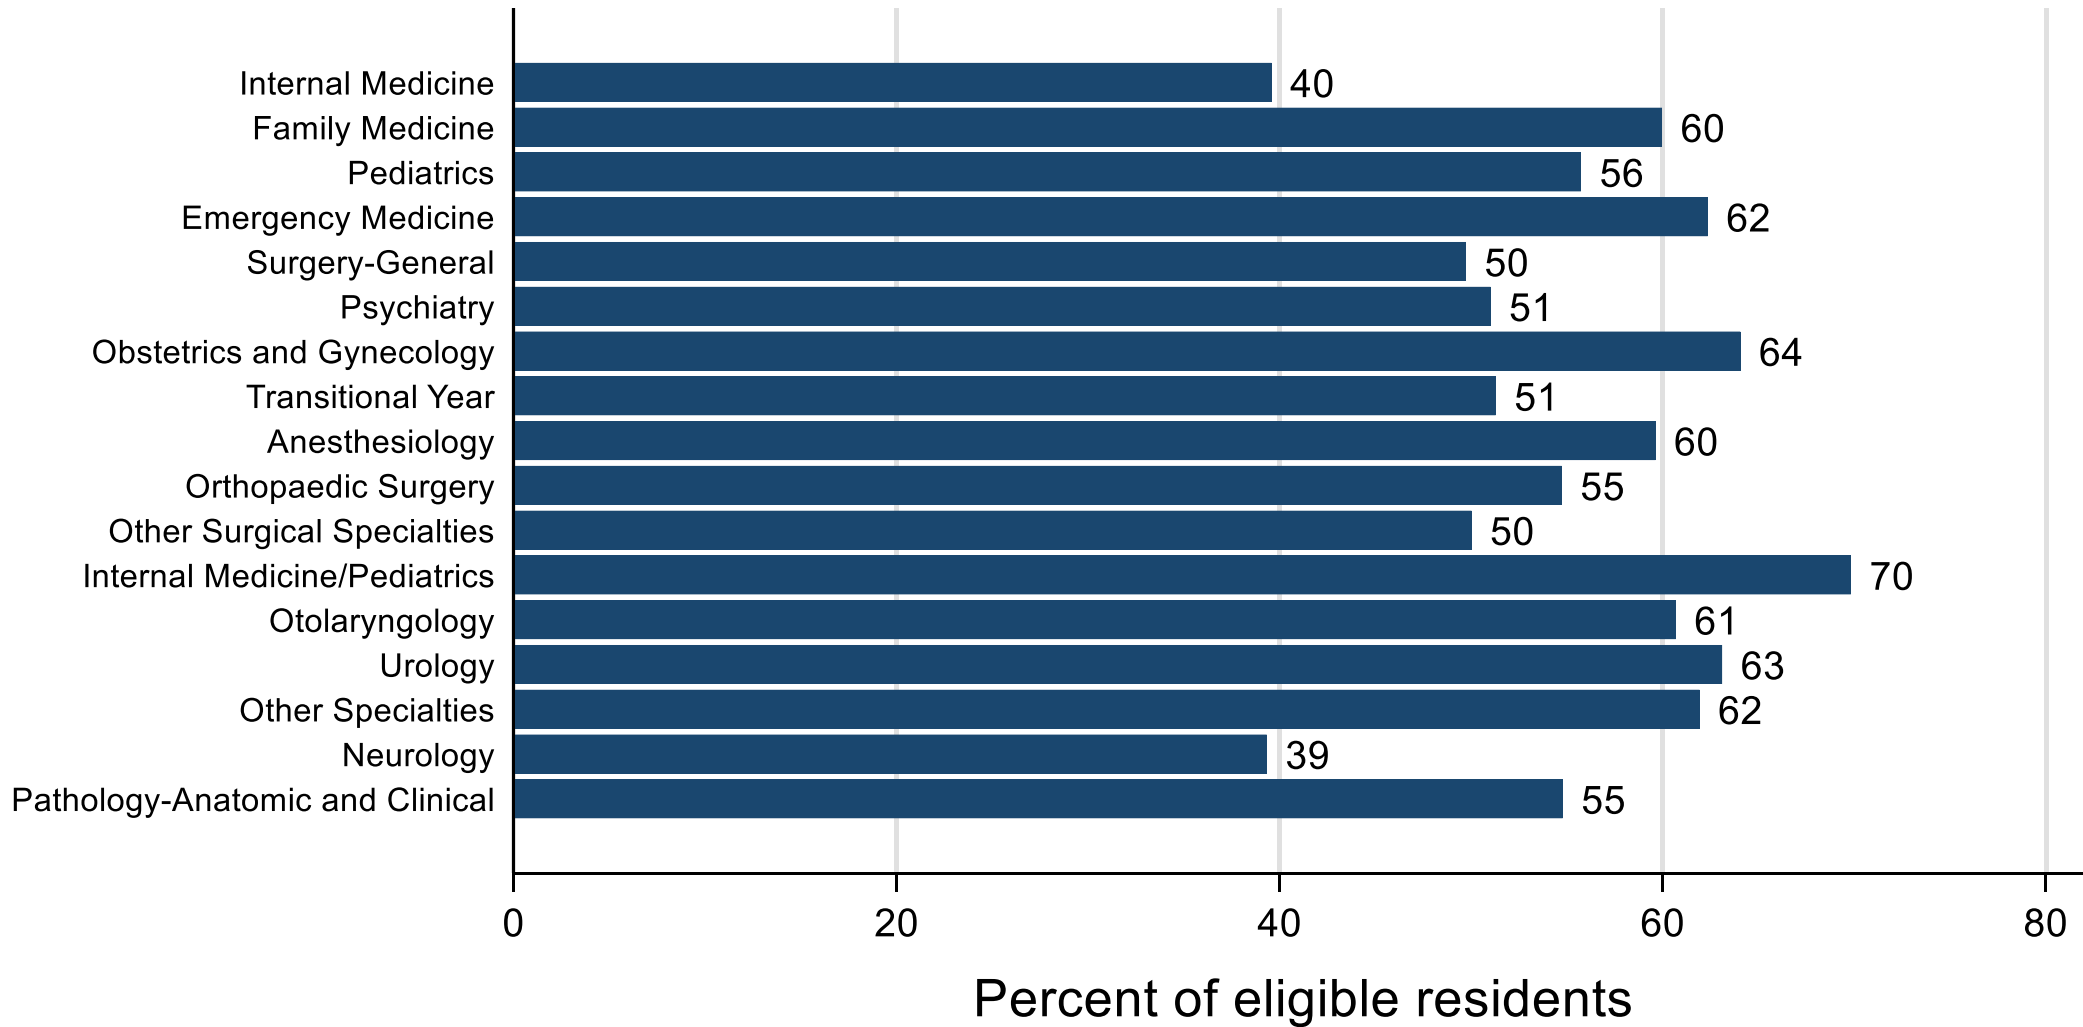

AAMC

# RRS Pilot Timeline

SOM sign participant agreement(s) with AAMC for Pilot Cycle 1 2020 (February – June 2020)

→

Participating SOMs Withhold Sending Local PD Survey (July 2020 - July '21)

→

PDs of eligible residents are invited to complete readiness survey via GME Track (October 2020 - Jan '21)

→

AAMC Prepares Individual Level Participant Reports (Early 2021)

Participants Access Respective Reports via MSPS* Portal (Spring 2021)

→

Participants Complete Follow-Up Questionnaire About Pilot Utility (1-Summer 2021, 2-Fall 2021)

→

AAMC recruits cycle 2 participants in pilot (SOM)

→

AAMC launches Cycle 2 Pilot (2021-2022)

*Commission on Osteopathic College Accreditation (COCA) schools receive reports via alternate method

# Resident Readiness Pilot

|                          | 2020              | 2021 |
|--------------------------|-------------------|------|
| Number of schools        | 77                | 120  |
| Number of programs       | 2,859             |      |
| # of programs covered    | 1,791 (62.6%)     |      |
| Number of residents      | 10,743            |      |
| # of residents covered   | 5,578 (51.9%)     |      |

AAMC

# Coverage by specialty

| Specialty | Percent of eligible residents |
|---|---|
| Internal Medicine | 40 |
| Family Medicine | 60 |
| Pediatrics | 56 |
| Emergency Medicine | 62 |
| Surgery-General | 50 |
| Psychiatry | 51 |
| Obstetrics and Gynecology | 64 |
| Transitional Year | 51 |
| Anesthesiology | 60 |
| Orthopaedic Surgery | 55 |
| Other Surgical Specialties | 50 |
| Internal Medicine/Pediatrics | 70 |
| Otolaryngology | 61 |
| Urology | 63 |
| Other Specialties | 62 |
| Neurology | 39 |
| Pathology-Anatomic and Clinical | 55 |

Percent of eligible residents

AAMC

Percent coverage by medical school

# During the transition to GME did this resident meet overall performance expectations?

# OPDA: What is your estimate of the % that met expectations?

AAMC

**63.3%** of PGY1 residents met overall performance expectations, and

**34.2%** of residents exceeded overall performance expectations.

**2.5%** of PGY1 residents did not meet overall performance expectations.

AAMC

# UME-GME Handoff

## Please Help Us Improve Response Rates by PDs - Pilot Cycle 2!

**We need your help to improve the handoff –** Reduce the burden on our PDs; Improve the validity of the data; and ultimately enhance the UME curricula and residents' readiness for GME

1. Consider **sending a personal message** to your PDs about the RRS and encouraging them to participate (December 2021 – February 2022)
2. If there are **opportunities to present** information about the RRS pilot during a forum or convening, please let us know (December 2021 – February 2022)
