

Long COVID Education, Engagement, and Care Management Call for Expert Panel Applications

CMSS invites you to engage with us on a new project focused on Long COVID education, engagement, and care management. The Centers for Disease Control and Prevention (CDC) recently awarded funding to CMSS to support multidisciplinary coordination and collaboration across medical societies to improve primary care education and engagement in the care of patients with Long COVID.

CMSS is now accepting applications for a multi-disciplinary Expert Panel on Long COVID. We are looking for patients and professionals with expertise in the diagnosis and management of Long COVID and related conditions and experience with clinician education to guide this effort.

Please send any questions to LongCOVID@cmss.org.

Applications are due December 13, 2024.
