

# Program Directors Association Guide for Residency Applicants

## Psychiatry

The *Program Directors Association Guide for Residency Applicants* is a collaborative effort between the Organization of Program Directors Association (OPDA), Association of American Medical Colleges (AAMC), and American Medical Association (AMA). Its purpose is to provide specialty-specific guidance, application information, and resources. This guide outlines specialty-level guidance and policies for applicants to Psychiatry programs.

Specialty responses in this guide were provided through a standardized web form. The corresponding questions from that form are referenced in the footnotes. If a specialty indicated "No specialty recommendation to programs," it means the specialty does not provide guidance on how programs should approach that aspect of the selection process.

Please note that not all aspects of the residency application process are standardized at the specialty level. Applicants should review individual program requirements in Residency Explorer™ tool, FREIDA™, or on program websites.
