## Elsevier

1818 Market Street, Philadelphia, PA, 19103

---

A global leader in advanced information and decision support, Elsevier helps to advance science and healthcare, to advance human progress. We do this by facilitating insights and critical decision-making with innovative solutions based on trusted, evidence-based content and advanced AI-enabled digital technologies.

We have supported the work of our research and healthcare communities for more than 140 years. Our 9,700 employees around the world, including 2,300 technologists, are dedicated to supporting researchers, librarians, academic leaders, funders, governments, R&D-intensive companies, doctors, nurses, future healthcare professionals and educators in their critical work. Our 3,000 scientific journals and iconic reference books include the foremost titles in their fields, including Cell Press, The Lancet and Gray's Anatomy. Together with the Elsevier Foundation, we work in partnership with the communities we serve to advance inclusion in science, research and healthcare in developing countries and around the world.

Elsevier is part of RELX, a global provider of information-based analytics and decision tools for professional and business customers. For more information on our work, digital solutions and content, visit www.elsevier.com.

# DIAMOND PARTNER

## OpenEvidence

577 2nd Ave, San Francisco, CA, 94109

OpenEvidence is the most popular AI for doctors in the United States. According to independent studies, more American physicians use OpenEvidence than all other AI platforms combined. OpenEvidence is trusted by millions of verified U.S. healthcare professionals making high-stakes clinical decisions at the point of care, with evidence that is sourced, cited, and grounded in peer-reviewed medical literature. Founded with the mission to organize and expand the world's collective medical knowledge, OpenEvidence is now used daily, on average, by the majority of physicians in the United States. OpenEvidence partners with the New England Journal of Medicine (NEJM), Journal of the American Medical Association (JAMA), American Diabetes Association (ADA), American College of Cardiology (ACC), American College of Obstetricians and Gynecologists (ACOG), and many more societies and content partners to deliver the best possible evidence directly to clinicians. OpenEvidence is free for all verified U.S. clinicians.

## PCORI

1333 New Hampshire Ave, NW Ste 1200, Washington, DC 20036

---

The Patient-Centered Outcomes Research Institute (PCORI) is a non-profit organization that funds patient-centered comparative clinical effectiveness research (CER). CER compares two or more healthcare options, generating evidence about any differences in potential benefits or harms to empower patients, caregivers and other healthcare decision makers with information to make informed choices that reflect their needs and preferences. PCORI emphasizes the engagement of patients, caregivers and the broader healthcare community in all aspects of PCORI-funded research and research-related activities, including the dissemination and uptake of research findings.

## Health eCareers

360 Park Avenue South 17th floor, New York, NY10010

---

You care about your mission—and so do we. We believe deeply in the missions of all our partners. That's why Health eCareers has been fully invested in the work of medical and healthcare associations for over thirty years. We know your organization makes a real impact on the health and quality of life of people across the country, and as your trusted advisor, you can expect an innovative portfolio of career services to grow not only your mission, but also your reach and revenue.

As a career services partner that offers a comprehensive suite of capabilities to our partners and their members, we're different from other career sites. Rather than forcing job seekers to search for jobs in one specific way, Health eCareers makes sure your members find their next job in a way that's most comfortable for them. Using the latest in geolocation mapping, generative AI, and search technologies, we can help your members discover their dream job.

## AAMC Electronic Residency Application Service

655 K ST NW, Suite 100, Washington, Washington, District of Columbia, 20001

---

The AAMC Electronic Residency Application Service® (ERAS®) program is a foundational part of the transition to residency ecosystem and supports students, programs, specialties, and schools. For over 30 years, the ERAS program has been the gold standard in medical residency and fellowship applications, trusted by over 131 specialties and more than 10,000 programs. Through our strategic collaboration with Thalamus, we are accelerating innovation in the transition to residency by enhancing interview scheduling, recruitment analytics, and holistic review.

Look to the AAMC and ERAS program for:

- Secure residency application management.
- Data that is reliable, timely, and supports decision making.
- Resources like AAMC Careers in Medicine, FIRST (Financial Information, Resources, Services, and Tools), and Visiting Student Learning OpportunitiesTM (VSLO®) that help students prepare for a successful transition to residency.
- Partnership with other leaders in the transition to residency in providing the data that power the Residency ExplorerTM tool.

The AAMC has rapidly accelerated the pace of innovation across ERAS platforms. New features are transforming the way the ERAS program supports aspiring doctors and the entire medical education community.

AAPL
Leadership is **Learned**

## American Association for Physician Leadership

PO Box 96503 I BMB 97493, Washington, DC, 20090-6503

---

The core philosophy of the American Association for Physician Leadership (AAPL) is that leadership is learned. AAPL is focused on the personal transformation of all physicians, and through them the organizations they serve. With the goal of improving patient outcomes, workforce wellness, and a refinement of all healthcare delivery, AAPL has remained the only association solely focused on providing professional development, leadership education, and management training exclusively for physicians. Since its founding in 1975, AAPL has empowered more than 300,000 physicians across 35 countries—including CEOs, chief medical officers, and physicians at all levels of healthcare.

PPA SOLUTIONS
Developer of
MatrixPPA

## PPA Solutions

306 B Rome St, Carrollton, GA, 30117

PPA Solutions provides MatrixPPA, a healthcare data and registry platform purpose built for medical specialty societies, professional associations, and other organizations managing large scale clinical data programs. MatrixPPA supports clinical registries, quality measurement and reporting, research, analytics, patient-reported outcomes, and data acquisition from EHR and practice-management systems. The platform also supports AI-enabled ingestion of unstructured clinical data, along with device and post-market surveillance workflows.

PPA Solutions currently supports the American Academy of Otolaryngology–Head and Neck Surgery Foundation (AAO-HNSF) as the technology platform for its Reg-ent® Clinical Data Registry. That work includes multi-vendor EHR connectivity, clinical data normalization, CMS quality measure calculation and submissions, practice onboarding, research data delivery, and ongoing registry operations at national scale. MatrixPPA also supports needs such as PRO/ePRO collection, 21 CFR Part 11-controlled workflows, FDA-regulated and post-market programs, UDI/RFID/barcode capture, document-based data ingestion, benchmarking, risk-adjusted outcomes, accreditation initiatives, and public quality reporting. Our focus is helping provider and professional associations build sustainable data infrastructure that supports quality improvement, research, advocacy, clinical insights, and future data driven initiatives.
